

Next Steps Overview

- **Sunday**
 - Meet via Zoom on Sunday – aim to have all changes completed by then!
- **Monday**
 - Meeting/work session Monday, try rebasing and merging before then but we can resolve any conflicts in person
 - Maitree and Siddhant to pass off anything they didn't finish to Ishan and Shelby
- **Tuesday**
 - Finish merging, internal code freeze Tuesday midnight
 - Siddhant and Maitree won't be available due to other final
- **Wednesday**
 - Clean up our code and repo
 - Deadline for peer review
 - Meet to do sprint review, retrospective, and plan for the final presentation deliverables

Coding Tasks (**Complete by Sunday 12/8**)

- Added tasks since sprint
 - Career modal display
 - Moving career modal to display over the dashboard on the full screen instead of within career section on the dashboard
 - Career tracker display
 - Switching career tracker to just display the company name, position title, application status, and follow up date. Then if users click on an entry it can expand in a way similar to the add modal to show all the details.
 - Calendar edit button
 - Privacy policy (Shelby)
 - Mobile responsiveness (Shelby)
 - Menu button hover (Shelby)
 - Implement calendar API (Maitree)
 - Calendar ADR (Hanzhi)
 - Include that you put in the effort to build the calendar but that there was an easier way
- Backend team:
 - JS Unit Tests
 - To do list (Ronit will teach everyone)
 - Calendar (Hanzhi)
 - Career Tracker (Maitree)
 - Sign in (Shelby)
 - Update and delete events connected to the calendar/fix backend (Ronit)

- Upcoming deadlines backend portion (rollover) (Siddhant, Ronit)
- Google Verification (rollover) (Siddhant)
- ADR on Modularity (Shelby)
- Mobile app (Siddhant - only if time permits, prioritize other tasks/assisting frontend team if needed)
- JSdocs hosting, should be done on github pages (Ishan)
- End to end testing using playwright (Ronit)
- Frontend team
 - Replace gif with fire for 404 error page (Shelby)
 - Add logo to sign in page (Shelby)
 - Dashboard (continued from thanksgiving) (Sarah, Maitree, Hanzhi)
 - Standardizing Component Styling (continued from thanksgiving) (Sarah, Maitree, Hanzhi)
 - User feedback (Shelby)
 - User Journey (Shelby)
 - Change nav bar to to do, calendar, upcoming dates, career tracker (Shelby)
 - To do list alternating colors and remove career, project, class tags (Sarah)
